REMOOTIO PRO

GROUPS & ACCESS RULES

HOW USERS ARE IN GROUPS

Organize users into groups and define access rights for each group.

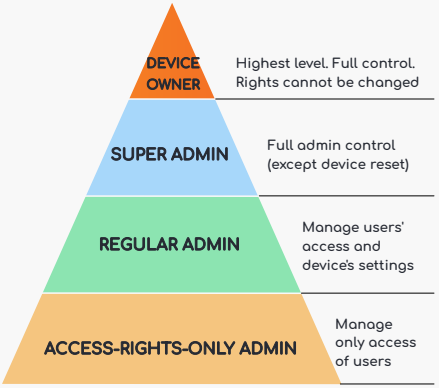

Group restrictions apply to every user inside that group. If a user's personal rights are wider, the group restrictions still apply.

ADMIN USER ROLES & PERMISSIONS

ROLE	PERMISSIONS	WHEN IN A GROUP
Access-rights-only admin	• Can edit access rights of other non-admin users	Can only edit users' access in that group
Regular admin	• Can edit access rights of other non-admin users • Can edit device settings	Can only edit users' access in that group
Super admin	• Can edit access rights of other non-admin users • Can edit device settings • Can edit other admin users • Can see and edit all groups	Can manage all groups & admin users
Device owner	• Everything Super Admin can do • Can reset device from the app • Rights cannot be revoked or altered	Can manage all groups & admin users and reset device

ADMIN HIERARCHY

API INTEGRATION

WEB-BASED API INTEGRATION

Integrate Remootio Pro into your own system.

Our web-based API allows you to control the device and manage users programmatically.

API CAPABILITIES

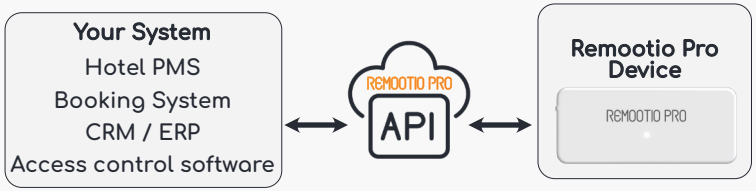

Basic

- Open / close the gate
- Check status if open or closed
- Operate any of the device's outputs

Advanced

- Create new user / group
- Edit key / group access rights
- Access and read log of events

HOW IT WORKS

EXAMPLE USE CASES

RESIDENTIAL BUILDING / GATED COMMUNITY

Residents (one group per apartment / household)

- One group per apartment
- Apartment owner is access-only admin that can manage access of own family & guests

2. CLEANING / MAINTENANCE / GARDENING TEAM

Staff (one group per team)

- Can only access during work days & hours
- Restricted to on-site access methods only (no internet / remote access)

3. HOTEL PARKING / PARKING LOT / OFFICE BUILDING CAMPUS / GYM / CAR RENTAL

- Create groups for different user types
- Give varied access to guests, employees, vendors
- Integrate with your hotel system via our API

REMOOTIO PRO

EXAMPLE USE CASES

1 ONE-TIME ACCESS: e.g. Delivery, Guests, Pet Sitter

- Create one-time PIN code or QR code
- Random PIN or QR code
- Maximum uses = 1
- Delete user after max use

ADMIN SETUP

1. Create User
   - Name: Delivery 12 August
2. Set Maximum Uses
   - 1
   - The PIN code can be used only once.
3. Generate PIN code
   - 749216
   - Copy / Share PIN

OR

3. Share App-free key via QR Code or Link
   - Share Link

HOW IT WORKS

Delivery person arrives → Enters PIN code or opens QR code link → Gate opens

2 TIME-LIMITED ACCESS: e.g. Hotel, Parking lot, Car Rental, Gym, Private Membership Facility

- Create a user (optionally with integrated API)
- Give a PIN code / RFID card / App-free key QR code or link
- Access limited between two dates

ADMIN SETUP

0. Guest checks in or confirmed booking
1. Create User
   - Name: Guest Room 101
   - Optionally use your own system integrated with API
2. Set Access Period
   - From: August 15 2025
   - To: August 20 2025
   - Access only during this period.
3. Generate PIN code or App-free key link / QR code
   - 572901
4. Send the credentials to guest

HOW IT WORKS

Guest enters PIN or opens link → Access is valid only during stay → Gate / room door opens

3 GROUP ACCESS MANAGEMENT: e.g. Residential building, Gated Community, Office campus, Factory Warehouse

- One group per apartment
- Access-only admin for each apartment (owners manage their own users)
- Maintenance / gardening group with restricted & time-limited access

GROUP STRUCTURE & ACCESS SETUP

APARTMENT GROUPS (one group per apartment)

Group: Apt 101	Group: Apt 102	Group: Apt 103
Owner (access-only admin)	Owner (access-only admin)	Owner (access-only admin)
Family members & temporary guests	Family members & temporary guests	Family members & temporary guests

Access-only admin (the owner) can:

- Create users for family / temporary guests
- Max users / group can be set by who created the groups
- Set PIN code, usage limits, time limits etc. for their group
- Cannot see or change other groups or device settings

GARDENING TEAM GROUP

Group: Gardening Team

Access methods enabled: Bluetooth, Keypad PIN, RFID card

Time Limitations: Mon - Fri, 07:00 - 17:00

HOW IT WORKS

For Apartment Owners

They manage access for their apartment group such as: Add users, Generate PIN, Share link

For Gardening Team

Their access can be limited to:

- On-site (Bluetooth/PIN/RFID)
- During certain days & hours
